ICS (Intermediate in CS)

1st Year Student

Govt. Post Graduate College, Okara

Profile Summary

Passionate Frontend Developer and UI/UX Designer currently pursuing ICS at Govt. Post Graduate College Okara. Specializing in creating highly interactive and visually stunning web interfaces using React, GSAP, and Three.js. Focused on blending modern aesthetic design with seamless user experiences.

Featured Design & Development Projects

Velitox (Productivity Suite SaaS)

UI/UX Design | React | GSAP | Three.js

- Designed a premium dark-themed SaaS interface with a focus on productivity.
- Developed high-end motion components and 3D interactions to enhance UX.
- Ensured a fully responsive and interactive dashboard experience.

University of Sahiwal Redesign (Concept)

UI/UX | React | Tailwind CSS

- Re-architected the portal UI for better accessibility and modern look.
- Created a user-friendly navigation flow for students and faculty.
- Implemented clean, grid-based layouts to showcase academic structural balance.

Gourmet Food Website & Admin Panel

Frontend Development | HTML | Tailwind CSS

- Designed an appetizing and intuitive interface for food selection.
- Developed the frontend for a robust admin panel to manage orders.
- Focused on high-quality visuals and smooth transitions.

Interests & Goals

- Advancing skills in 3D Web Graphics and Interactive Design.
- Contributing to open-source UI libraries.
- Building scalable and aesthetically pleasing digital products.
